execution plan

To empower Creatives with Production Technology right from script to screen. Seamlessly enabling technology plus management to integrate with multiple stakeholders & various processes, augmenting the creative vision right until finishing. Empowering teams to push creative boundaries while navigating realistic limitations, with Meticulous Planning, Disciplined Execution, and Effective Management Solutions.

focus

- Engaging with all key stakeholders including Post teams right from the beginning of any project.
- Creating bespoke solutions for projects as timelines, budgets scale differ project to project and plans need to be more flexible.
- Optimising time taken from start to finish of the entire project as Time Spent=Money Spent.
- Use only the required and the right technology suitable for all projects.
- Custom make onset and editorial workflows for each project, plan VFX workflows from onset to Studio with maintaining image consistency.
- Keep clear communication channels with key stakeholders for regular updates on timelines, schedules, budgets escalations and for raising red flags at the right time.
